

Panel & Desktop Receipt Printer

AB-PD860

The panel desktop printer is designed to be small and in a unique way, with a selection of multiple interfaces. SDK and the expertise of the engineers have perfected the hardware solution.

HIGHLIGHTS

- They could be used as panel mounting printer and desktop receipt printer
- Small size rack mounting
- Silent printing through direct thermal printing method
- High resolution (203dpi: 8dots/mm)
- Easy paper loading with button open cover
- Support text and graphic printing
- Integrated serial and USB interface
- Auto cutter

APPLICATION REFERENCE

Hospitality & Leisure: Reducing transaction time is invaluable to any business in today's hospitality.

- Point of sale receipting
- Coupon printing
- Kitchen printing
- Bar receipt printing
- Mobile receipting
- Ticketing

SPECIFICATIONS

Printing	Direct thermal line printing	Interface	RS232 & USB
Characters Per Line	48CPL	Input Power	DC24V 2.0A
Character Size	12x24	Power Adaptor	Option
Resolution	203dpi(8dots/mm)	Operating Temperature	0 C~50 C
Print Width	72mm	Storage Temperature	-10°C~70°C
Printing Speed	170mm/s	Auto cutter	Partial Cut/Full Cut
Paper Roll	Paper Type: Thermal Paper	MCBF	Electric Life:100,000,000 pulses
	Paper Diameter:60mm	Wear Life	Paper feed length Approximately 50 Km
	Paper Width:80mm	Dimensions (W x D x H)	117.5x107x86.5mm
Receive Buffer Size	4KB	Paper Supply Method	Easy Paper Loading
